

Spectra 600e

One Touch Scanning

Immediately activate a scan and open the image in an appropriate application and format. The scanner comes with action buttons for scanning, copying and emailing and can be easily reconfigured for other tasks.

The Spectra 600^e scanner is **RoHS** and **Energy Star[®] Compliant**

Economize your business with Spectra 600^e featuring our advanced technology and quality imaging for monochrome and color scanning. The 42" imaging area handles large color posters, architectural sketches, detailed maps and drawings at the highest resolution and speed.

A High Scanning Resolution at 600-dpi ensuring outstanding image quality. Automatic Thickness Adjustment Control (ATAC) allowing

scanning of up to 15 mm media thickness. Advanced 48-bit CCD Technology guaranteeing picture-perfect details, All-Wheel-Drive cares for your originals and protects valuable documents.

- **Very Fast Scanning Speeds**
- **High Quality at an Affordable Price**
- **Advanced Image Enhancement Features**
- **48-bit Color Data Capture**

The Spectra 600^e captures color at 48 bits for maximum precision. The Spectra 600^e sets new standards for wide format monochrome and color capture, and full-size drawing scans.

Image Enhancement Power

The Spectra 600^e contains advanced technology for color and monochrome enhancement. The patented B/W adaptive threshold works simultaneously on foreground, background, edges and other individual aspects of the original producing clean, crisp scans even from poor quality drawings. All processing is embedded in the hardware enabling you to perform powerful image enhancement without overhead and at speeds incomparable to standard software processing.

RoHS Compliancy - Scanners for a Better Environment

The scanners meet the strictest directives for a better environment. The RoHS European Market directives define maximum levels for certain substances in products containing electronic components and set rules that help minimize problems caused by electrical waste materials.
